

Mobile Space Solutions for the Golf industry  
ARCUM: Flexible. Fast. Cost-efficient.

**VOLO**

The power to lift brands.

## The ideal solution when space is limited

We design, manufacture and distribute engineered clear span tent solutions throughout North America and worldwide. Our structures are available in different sizes, shapes and configurations. From 3 to 60 metres clear span width. Single or two-story. The varieties are almost limitless. You will find the perfect solution for every occasion. Individually designed to suit your needs and specific requirements.

Golf course owners and operators worldwide use our structures to create additional event space and to expand existing facilities when space is limited. Building new, traditional buildings usually requires long planning and construction periods, not to mention the high investments involved. Relocatable structures can be a fast and also cost-effective alternative to expand your space capacities temporarily or permanently.

## Applications examples

- Exclusive hospitality facility
- Clubhouse expansion
- Cafés and restaurants
- Merchandising and pro shops
- Golf cart storage
- Player's lounge
- 19<sup>th</sup> hole facility

and many more...

## Your advantages at a glance

- Cost-effective alternative to traditional buildings
- Quick installation and dismantling
- Great flexibility through modular structure
- Easy reuse and relocation
- Resource-efficient and therefore sustainable
